

## Company profile

**CMT Prooptiki Ltd**, a management consulting firm specialising in health & social care consulting, handling EU projects and national accounts for both the public and the private sector, is looking for two dynamic people to join its Athens offices as:

### *2 Consultants (Healthcare sector)*

## Role description

The Consultant will be a competent professional with ability to translate research findings into meaningful reports and project plans. He/She has to be experienced in health policy issues and able to deliver high quality outputs.

## Key accountabilities

- Writing analytical reports and research papers, briefings and client presentations.
- Design and conduct research (literature review, desk-based and primary research) and prepare research papers and reports.
- Evaluate and analyse policies, practices and services.

## Educational/ professional qualifications

### Essential

- An undergraduate degree in one of the following fields:
  - Economics or Politics science
  - Medical science or health professions
- A postgraduate degree preferably in the fields of health policy, health economics, or business studies in health sector.
- Good understanding of primary research results, conclusions and methodologies.
- Advanced working knowledge of standard office software.
- Work experience in one (or more) of the following fields:
  - Conducting research and studies in the fields of health policy, or health economics

- A consulting firm or a healthcare organization or
- The pharmaceutical industry (e.g. in Public Affairs, Market Access or Health Economics department).

## Skills and abilities

- Ability to take initiative, with a strong attention to details.
- Ability to think strategically, synthetically, analytically and creatively while organizing time efficiently and manage a large workload.
- Strong interpersonal skills and ability to work successfully within a team and individually.
- Excellent written and verbal communication skills in Greek and English.
- Ability to explore, collect, manage, evaluate and present secondary data combined with convenience in processing and synthesizing information.

Please send your CV by email to [social@cmtprooptiki.gr](mailto:social@cmtprooptiki.gr). Please state 'Consultant (Healthcare sector)' in the subject line of the email. Please note that only candidates selected for an interview will be contacted.
